

The Swiss Chemical Society (SCS)

The Swiss Chemical Society (SCS) is the professional body for chemists and scientists from chemistry-related fields both in Switzerland and abroad. The society supports the exchange of scientific and technical know-how and offers corresponding networking possibilities to the academic and industrial community and represents our members in national and international organizations. We have members in more than 50 countries and represent about 3'000 individual and institutional members.

Key activities of the SCS include

- **Events** such as scientific meetings, congresses, and courses to assist, inform and educate the community in all fields of pure and applied chemistry.
- **Awards** for outstanding contributions in a wide range of chemical fields.
- **Representation** of interests of Swiss scientists in national and international organizations.
- **Publication** of the scientific journal CHIMIA and involvement in associated journals, e.g., Helvetica Chimica Acta, ABC, PCCP and the journals of Chemistry Europe (CE).

The SCS is a member of European Chemical Society (EuChemS), the Swiss Academy of Sciences (SCNAT) and the Swiss Academy of Engineering Sciences (SATW). It is also connected to the International Union of Pure and Applied Chemistry, IUPAC (with the Platform Chemistry of the SCNAT being the Swiss representative) and has a standing membership on the board of *scienceindustries*.

CHIMIA, International Journal for Chemistry and Membership Journal of the SCS

CHIMIA, a platinum open access, scientific journal for chemistry in the broadest sense covers the interests of a wide and diverse readership. Contributions from all fields of chemistry and related areas are published in the form of invited review articles and notes. A characteristic feature of CHIMIA are the thematic issues, each devoted to an area of great current significance, produced by a guest editor, an acknowledged expert in the field.

CHIMIA is published 10 times a year and is listed in Current Contents/Physical, Chemical and Earth Sciences, Chemical Abstracts, Science Citation Index, Research Alert, Scisearch, Index Chemicus, Chemistry Citation Index, Current Chemical Reactions, Reaction Citation Index, PubMed and Biological Abstracts.

Editorial Program 2024

Issue	Publication Date	Topic, Guest Editor
1-2	28.02.2024	Young Professors and Ambizione Fellows in Chemistry in Switzerland C. E. Housecroft, University of Basel
3	27.03.2024	Academic/Industrial Collaborations in Process Chemistry & Technology L. Lovelle, Novartis
4	24.04.2024	Laureates, Junior Prizes Fall Meeting 2023 H.P. Lüthi, ETH Zurich / SCS Foundation, E. Hevia, University of Bern
5	29.05.2024	Operando Spectroscopy D. Ferri, PSI Villigen
6	26.06.2024	Sustainable Development Goals in Chemistry in Switzerland J. Milic, University of Fribourg
7-8	21.08.2024	SCS Major Awards / SCS Fall Meeting C. Bochet, SCS / University of Fribourg, C. E. Housecroft, University of Basel
9	25.09.2024	Scientific Integrity – Added constraint, or best practice? E. C. Constable, University of Basel
10	30.10.2024	ERC and SNSF/ERC Funded Research 2019-2023 J. Holland, University of Zurich
11	27.11.2024	Atmospheric Chemistry U. Baltensperger & C. Mohr, PSI Villigen
12	18.12.2024	Materials Chemistry M. Kovalenko, ETH Zurich

Company Reports

Would you like to present your latest products, processes, or methods to a broad scientific community? Company Reports in CHIMIA offers you easy access to decision makers from academia and industry.

Company Reports focus on scientific innovation in any field of chemistry and biotechnology. They support your marketing efforts in an efficient way and provide more scientific background information than simple ads.

Company Report Topics

- Analytical measurement instruments
- Laboratory installations and apparatus
- New chemical compounds and intermediates
- Services for the Chemical and Pharmaceutical Sector
- Company Portraits
